## Deanery Choir Club - Summer term

Miss Jenner will be running a new Choir Club for the Summer term on a Monday after school from 3.30-4.30pm for Years 4,5 and 6.

The cost is £30 for the term and places will be limited to 30 children.

Children will need to sign up for the whole term as they will be working towards attending a Services for Education concert on the 13th/15th/16th July at Symphony Hall (date to be confirmed at a later stage).

The charge of £30 per child for the club will go towards the cost of the coach to Symphony Hall in July.

Booking available on the Arbor App.

# After School Club Summer Term '26

## for Reception, Y1 and Y2

### Children

Mondays

3:30pm - 4:30pm

13th April - 18th May 2026

(6 weeks - £42)

1st June - 13th July 2026

(7 weeks - £49)

\*Please note that classes can fill fast, but please join the waiting list and you will be the first to know if spaces open up.  
By booking onto Summer 1, your little one will also have a reserved space for Summer 2. Payment for this is not required until May but can be made sooner if you wish.

## Bookings taken online only @ www.rugbytots.co.uk/class/Find

Our after school clubs offer the chance to learn the basic skills involved with rugby - skills that are transferable to other sports and activities. What's more, in addition to developing children's agility and co-ordination, Rugbytots helps to enhance confidence and self-esteem. The development of better listening skills and teamwork all play an important part too.

# Learn to code with Code Camp afterschool!

**Little Coders**  
Years 1 and 2

Our incredibly popular Little Coders after-school club is designed for our youngest coders who want to learn the basic principles of coding in a fun, practical and exciting way. Building on the KS1 computing curriculum, students will learn about simple algorithms, loops, variables, animation, level design and more through coding their own simple games. Not to be missed!

**Coding**  
Years 3 - 6

Calling all budding game designers! Our highly-rated Coding after-school club allows older children to create and publish their own unique games using our custom platform, Code Camp World. We have made Code Camp World as accessible as possible, meaning that children can focus on the fun aspects of coding whilst developing problem-solving and creativity skills.
